

Candidate name: W [REDACTED]

MCC candidate code: [REDACTED]

Examination: MCCEE

Your total score: 313

Examination date: 2016-05-19

The purpose of this report is to provide you with supplemental information on your relative strengths and weaknesses, based on your performance across the different domains that were assessed by the test form of the Medical Council of Canada Evaluating Examination (MCCEE) that was administered to you.

Figures 1 to 3 display your performance for domains based on three different but interrelated classification systems: first by Health Group (i.e., Adult Health, Child Health, Maternal Health, Mental Health, Population Health and Ethics); then by Clinician Task (i.e., Data Gathering, Data Interpretation and Synthesis, Management); and finally by Discipline (i.e., Medicine, Obstetrics and Gynecology, Pediatrics, Population Health and Ethics, Psychiatry, Surgery). Each domain within each classification system is sampled a number of times, with some being measured by a large number of questions and others by a smaller number of questions. Note that the questions overlap across the three classification systems.

To help you better understand your performance, your subscore for each domain is shown along with the mean score of candidates who were first-time takers of the MCCEE in the past year and who passed. The standard error of measurement (SEM) associated with each of your subscores represents the expected variation in your subscore if you were to take this examination again with a different set of questions covering the same or similar domains. Small differences in subscores or overlap between SEMs are indicative that performance in those domains was relatively similar. Likewise, overlap between the SEM for a domain subscore and the mean score of first-time takers who passed, within a given domain, signifies that performance is similar to the mean.

**It is important to note that the subscores are based on significantly less data than the total score and that these do not have the same level of precision as the total score.** If you have failed the examination and wish to retake it, preparation for all domains is important; otherwise you could improve some subscores and inadvertently lower others.

For more information, please visit the [MCCEE web page](#).

## MEDICAL COUNCIL OF CANADA EVALUATING EXAMINATION STATEMENT OF RESULTS

June 28, 2016

<b>Candidate name:</b>	W [REDACTED]	<b>Your final result:</b>	Pass
<b>MCC candidate code:</b>	[REDACTED]	<b>Your total score:</b>	313
<b>Examination date:</b>	2016-05-19	<b>Score required to pass:</b>	250

On behalf of the Evaluating Examination Composite Committee, I am writing to inform you of your standing on the Medical Council of Canada Evaluating Examination (MCCEE) that took place on the abovementioned date.

Your total score, which represents your overall performance, is reported as a scaled score ranging from 50 to 500. Your final result (i.e., pass/fail) is based on your total score relative to the score required to pass. Additional information, including the mean and standard deviation, is available from the Scoring web page at [mcc.ca](http://mcc.ca).

Supplemental feedback on your examination performance is reported to you in a separate document within your [physiciansapply.ca](http://physiciansapply.ca) account.

Please accept my best wishes for future success.

M. Ian Bowmer, MD CM, FRCPC  
Executive Director and Registrar  
Medical Council of Canada
