Introducing

The All-New CanadaQBank™

The World's Most Preferred Portal for the Medical licensing exams of Canada and the only portal to offer high quality, high-yield test questions for MCCEE, MCCQE & USMLE on one platform.

CanadaQBank™ has put in years of research & development to create an easy, intuitive & valuable portal that medical students and physicians can use to improve their performance.

CanadaQBank™ is updated on a quarterly basis and we make sure to include only high yield test questions that cover core concepts.

WHAT

sets CanadaQBank™ apart from other QBanks?

CanadaQBank™ has 100% high yield topics: Unlike other qbanks, CanadaQBank™ carries out extensive research and observes feedback shared by recent exam graduates before revising its learning material & test questions. The efficient blend of a powerful feature rich portal with complete exam customization, performance analysis, multiple learning modalities and availability on various platforms makes CanadaQBank the premier and leading qbank in the market.

We make sure that our systems are error-free and virus-free. This ensures that when your students take the test, the test performance scores & analyses are always accurate.

CanadaQBank™ is 100% reliable. Many qbanks on the market today don't provide cases & questions that cover core concepts – not something you'd want your students to spend their precious time on.

In sharp contrast CanadaQBank™ contains nothing but all high-yield content that is developed around the core concepts and it won't hurt your students' performance in the long-term.

CanadaQBank™ study material is 100% accurate with the facts. Over the last 5 years our qbanks have been edited meticulously by our medical reviewers & editors. This makes our information 100% accurate.

CanadaQBank™ is 100% optimized for maximum time-efficiency. Our medical reviewers and editors have made sure that old topics (which are not being tested on licensing exams) are being deleted from our database while at the same time adding new topics. This allows our qbank to have a reasonable size without becoming too overwhelming for the user. This way you know that your student will be able to completely utilize the qbank to its fullest extent without becoming overwhelmed with the quantity.

That's what CanadaQBank™ brings to the table. It provides a distinct set of study tools on an effective platform available on all desktop and portable devices along with a mix of high yield topics that focus on the core content of the license exam syllabus which make sure that, when it comes to clearing the licensing exams, you're covered.

CanadaQBank™ is specifically designed with the medical student & physician in mind.

The proof is in the pudding.

CanadaQBank™ receives 100's of testimonials and success stories every month and is the #1 choice among students taking the medical licensing exams. Over 15,000 medical students and physicians from 124 countries have subscribed to CanadaQBank.com from 2011 to 2013.

Whether you're looking to learn better, have better knowledge retention, or pickup your learning speed ahead of the exam, CanadaQbank™ is your answer.

CanadaQBank™ is the trusted partner for many universities and institutions. We work with top institutions and provide complete setup and technological support.

HOW

Students Have
Utilized
CanadaQBank

When students first realized that having more simulated exam practice with high yield questions could help them score very high marks in the exam, they quickly started using our premier qbank to improve their exam performance outcomes. This involved utilizing the qbank in the timed mode and answering questions under time constraints, later reviewing the exam performance & the explanations to the practice MCQs, finally identifying new learning topics and mastering them in the "topics" mode of the qbank. The results were outstanding!

“
Over 15,000 medical students and physicians from 124 countries have subscribed to CanadaQBank.com from 2011 to 2013.
”

CanadaQBank™ was founded in 2008 with the sole purpose of identifying high yield questions and providing students with a genuine platform to practice and hone their exam-taking skills. Canada Qbank had subscribers from its very first week and the user base began to grow rapidly through word of mouth... Fast forward 5 years and today CanadaQBank™ has turned into a major provider of high yield exam practice questions and has attracted over 15,000 medical students and physicians from 124 countries from 2011 to 2013.

HOW

Canada QBank
Achieved Its
Track Record

OPTIMIZED WAYS

TO BOOST SCORE IN MEDICAL LICENSING EXAMS

Often imitated, but rarely equaled.

As you may have guessed, our practice questions and cases are created by highly qualified physicians and our qbanks are updated on a regular basis. Our question patterns are constantly revised to reflect the changing trends in the medical licensing exams.

Our team works hard to constantly identify new topics that are being tested in the exams as identified by candidates taking the exams, and ensure that our study material is updated accordingly.

A continuous editorial review process means that only the highest quality of questions are included in the study resources.

The students also enjoy the advantage of higher technology at work. The comprehensive performance analysis tools available at our portal provide you an effective & truthful insight into your current knowledge level and exam performance.

Our graphs provide real-time comparison with others revising for the same exam on those particular topics. Our performance tools enable you to clearly see how you have improved over time and where you still need to focus your efforts.

Our strategies have proven to be very effective and we continue to receive 100's of testimonials every month. (Note: Testimonials along with "Actual score report" can be found on our website).

FEATURES of

CanadaQBank™

Meticulous upgrading to reflect the changing Medical council of Canada & USMLE testing patterns

It's nearly impossible to consistently predict and follow every change in testing patterns. Yet Canada Qbank achieves that goal!

It's an accomplishment made possible through continuous research and meticulous interviewing of test takers.

Every change and every newly tested topic has been meticulously refined and added to our database. And it's made with the level of expertise you'd expect from a top medical college, not a qbank. As a result Canada QBank serves as a perfect and substantial portal to help you prepare for your Canadian & U.S medical license exams.

Efficiency Single click start of optimized test

We've optimized all the parameters for you so you don't have to spend time adjusting the parameters every time. All you need to do is click the "Create test" button and "Voila!"...your test is launched.

Customized for different style of learning. Timed & tutor mode

As stunning as the learning level is on the Canada qbank, this portal gives you the opportunity to challenge yourself by going into the timed mode.

Want to study & learn upto 50 topics, make notes and collect important MCQs for later revision in one sitting? No problem. Our tutor mode allows you to do that.

“I only had about 7 weeks to study for the exam between electives, family commitments and starting my final year. I only used the question bank to study, with a bit of supplement from Toronto notes. I used about 60% of the bank and managed to get 382, 99th percentile. Will definitely be using the question bank in preparation for the MCCQE1. The questions were very similar to the actual exam, some questions were almost exactly the same.”

Shannon K

Passed with a score of 382. Percentile rank: 98

→ [View Actual Score Report](#)

Make Notes For Revision

The “Notes” feature allows you to add your own notes inside each MCQ and review them at a later stage. This allows you to rely on your notes during quick revisions

Target the tough questions through the “My questions” feature

You can now select tough questions within the exam and send them to a separate section for later reference and revision, This magic tool is called the “My Questions” feature and you will find it in your test panel

Lab Values Calculator Notes

A 3 year old female presents with urinary frequency, dysuria, and fever to 39.0°C (102.2°F). She denies nausea, vomiting, and flank pain. There is no prior history of urinary infection and no family history of urinary tract abnormalities. Urine catheterization reveals bacteria and a urine culture reveals >100,000 colony forming units of Escherichia coli. She is started on appropriate antibiotic therapy. She returns after 4 days with no improvement of her symptoms.

Evaluation to rule out anatomic abnormalities should include:

a) Renal ultrasonography only if she has recurrent infections
 b) Renal ultrasonography and voiding cystourethrography (VCUG) only if she has recurrent infections
 c) Renal ultrasonography and cystoscopy only if she has recurrent infections
 d) Renal ultrasonography for this primary episode of infection
 e) Renal ultrasonography and VCUG for this primary episode of infection

The correct answer is e.

Topic: UTI
Subject: Pediatrics

Explanation:
In the first few months of life, the incidence of urinary tract infection (UTI) in boys is higher than that of girls. However, after that time period, UTIs are much more common in females, with the peak incidence in the 2- to 3-year range. The clinical

In-built analysis for each MCQ

The biggest determinant of whether a qbank is useful to you or not is the retention of knowledge. Retention and repetition is what creates strong memory. It's natural that you'll know a few topics better than others. You will have your own weak points.

Canada QBank performance tracking features are built into each MCQ & subject, these features help you to identify your weak points and improve your knowledge in those areas.

Choice of questions : Multimedia & regular

The Canada QBank portal also offers multimedia MCQs. With new videos constantly being uploaded to our database we offer a wide array of video explanations to several high yield topics.

So rather than relying on text to learn new points everytime, you can depend on video to learn new concepts.

“My main problem was that I could never get reliable information about the actual MCCEE. CanadaQBank soon put that right. I studied for less than 6 months, did loads of questions on CanadaQBank. Come exam day, I was quite comfortable facing the questions and was thrilled to get a pass score of 398. This has boosted my confidence to prepare for MCCQE1 with the help of CanadaQBank”

Chrys H

Passed with a score of 398. Percentile rank: 99

Topics mode

Just like the weather, our learning moods will vary from time to time. Which means that you need to introduce variety into your learning regimen. So rather than using the typical test mode, you can use the “topics mode” and master one topic at a time. The ultimate goal is to keep moving forward regardless of your learning mood. The topics mode helps you move ahead one small step at a time.

The screenshot shows the 'Topics Mode' interface on the Canada QBank website. At the top, there is a navigation bar with 'CanadaQBank' logo and links for 'HOME', 'PRODUCTS', 'NEWSLETTER', and 'CONTACT'. Below this, the page title is 'QBank for the USMLE Step 1'. There are two buttons: 'Test mode' and 'Topics Mode' (which is highlighted). The main content area is titled 'Topic questions for QBank for the USMLE Step 1'. It features a 'Subject' dropdown menu set to 'Histology/Molecular Biology' and a 'Topic' dropdown menu set to 'Auto-Immune Thrombocytopenic Purpura'. Below these, it says 'Question Count: 1' and a red 'Study Topic' button.

The standard deviation graph

This graph allows you to monitor your progress and provides a visual representation of where you stand in the competition.

The bell curve shows how the majority of the test takers perform. The farther you are to the right, the better it is for you! A high percentile usually translates into excellent performance score on the real exam.

Difficulty levels

Well everybody has got to start somewhere. Perhaps you're a medical student starting your preparation early or a well experienced doctor who has lost touch with academics. You can now start with the "Easy" level of questions and then gradually stretch to answer "Medium" & "Hard" difficulty levels. Many of our clients start with the easy levels until their confidence levels gradually builds up and they are able to deal with the toughest questions eventually.

“Once I started to prepare for MCC exams I began to search for the appropriate materials that could help me to succeed. Fortunately, I found the canadaqbank site which has a comprehensive materials that is related to the Canadian medical practices. The site helped me to recognise the style of questions that could appear in the real exam. In addition, the explanation after each question helped to expand my knowledge in different specialities. Thanks to canadaqbank, I passed the MCCEE with a score of 454, and the MCCQE1 with a score of 723. My percentiles are 99.98 for the first exam and 99.92 for the second one. Without you, I had to struggle a lot in order to achieve these scores.”

JAMAL H

Passed with a score of 723. Percentile rank: 100

All new "Review my tests" section: Review, Analyze or retake tests

The all new CanadaQBank is just the beginning of the improved experience for test takers. The "Review my tests" section is designed with three key features: "Review", "Analyze" or "Retake the test".

- "Review" allows you to go through the entire test and the answers you had marked, you can also refer to it at a later stage. All the tests are archived so you can come back at a later stage and review how much your understanding has improved.
- The "Analyze" feature allows you to check how you have performed on the individual subjects.
- The "retake" feature allows you to retake the same test again in a timed setting.

Available on all platforms:

PC, Mac, Android, iPad & iPhone

As the world advances, so does the innovation at CanadaQBank. Innovative new platforms are being created for test takers, these include the iPhone apps, the iPad apps, Android apps, Microsoft Surface apps and more. These apps make learning not only omni-accessible but also FUN.

Our apps are available on iPhone App Store and Android Playstore. Our apps have been downloaded by more than 1000 subscribers.

The new Apps from CanadaQBank give you a better way to stay in touch with your subject knowledge. Apps also give you the tutor mode function through which you can master your topics whenever you have a few minutes of spare time. Just turn on the App and you'll have instant access to all your tests, notes and statistics. It is also an ideal tool to discuss MCQs with your peers.
